Diagnostic de performance énergétique (DPE)

This 31 m2 apartment is located on the fifth floor of a modern, very well maintained building built in 1970. The building's main entrance foyer is huge and bright and profusely decorated with veined marble. It also features glass walls opening onto the building's inner garden.

The floor plan of the apartment is the studio style but for a separate entrance foyer and a semi-closed kitchen with its own window. It has an attractive and rather large bathroom and separate toilet. The property is very bright and quiet and opens onto an open, tree planted courtyard.

It is in usable condition.
