Located between Bastille and Place de la République, on the second floor (with lift) of a beautifully ornate free stone building built in 1910, this apartment is truly a Parisian classic in its floor plan and architectural features. Its fishbone parquet, marble chimneys and ceiling mouldings have all been preserved. The living room is south facing and overlooks the boulevard and so opens onto the vast green area between the 2 branches of the boulevard. It features a large bow window. The apartment has 3 bedrooms and 2 bathrooms. Perfect for a family.
